SUMMARY

Lead Backend Engineer with 6+ years of experience building scalable Java microservices and distributed systems on AWS for global telecom, banking and insurance enterprises. Launched a sales channel platform for BT that grew order volume by 30%+ in 3 months, and leads AI adoption across backend engineering, from agentic AI products to AI assisted design and delivery. Mentors a team of 5 to 7 engineers.

TECHNICAL SKILLS

Languages: Java (17, 21, 25), SQL, Python
Backend: Spring Boot, Spring WebFlux, Spring Security, Spring Data JPA, Hibernate, REST APIs, GraphQL, gRPC
Architecture: Microservices, Distributed Systems, System Design, Event Driven Architecture, Scalability, High Availability, Low Latency, Concurrency
Data and Messaging: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, Apache Kafka
Cloud and DevOps: Amazon Web Services (AWS), Docker, Kubernetes, Terraform, CI/CD, GitHub Actions, Jenkins
Observability and Testing: OpenTelemetry, Prometheus, Grafana, JUnit, Mockito, Testcontainers
Generative AI: LLM Integration, Agentic AI, RAG, Vector Databases, Spring AI, MCP, Prompt Engineering, Claude Code

PROFESSIONAL EXPERIENCE

Lead Software Engineer | Bounteous | Client: BT (British Telecom) | Remote — Jan 2024 to Present

- Designed and launched a channel integration platform that moved BT's contact centre and retail store sales onto its new digital order journey, growing order volume by 30%+ within 3 months.
- Led agentic AI proofs of concept on Claude LLMs that give leadership end to end visibility of every order and its drop off points, and drive sales agent performance through leaderboards and follow up reminders.
- Scaled backend microservices to 10M+ API requests a month, absorbed a 50% traffic increase with reactive processing, and made order processing 35% more efficient.
- Automated manual business workflows across 1M+ records, cutting manual effort by 40% across multiple business lines.
- Brought generative AI into everyday engineering, using it to weigh architecture options in design reviews and to speed up coding, testing and code review.
- Mentor a team of 5 to 7 engineers and own code reviews, releases and production incident resolution.

Associate Consultant | Infosys | Client: leading private sector bank | Kolkata — May 2023 to Jan 2024

- Built Java backend services for core banking operations of one of India's largest private sector banks.
- Developed an internal automation tool that removed 40% of the team's repetitive work and shortened delivery cycles.
- Optimised high usage banking features and workflows, raising end user satisfaction by 40%.

Systems Engineer | Tata Consultancy Services (TCS) | Kolkata — Aug 2020 to May 2023

- Migrated 6M+ life, annuity and pension policies for leading UK insurers from legacy platforms to TCS BaNCS.
- Cut development time by 20% and improved application performance by 30% through workflow optimisation.
- Led and mentored junior developers through the full SDLC, delivering every release on schedule and within budget.

PROJECTS

Ledgerline | Payments Ledger — Java, Spring Boot, PostgreSQL, Kafka

- Payments backend that guarantees no customer is charged twice and no balance is spent twice, even under concurrent transfers, client retries and server crashes. Built for wallets, marketplaces and payout platforms.

Surge | Flash Sale and Ticketing Backend — Java, Spring Boot, Redis, PostgreSQL

- High traffic sales backend that stays online when demand jumps 50x in seconds, using a virtual waiting room and fair rate limiting, and guarantees that no ticket or item is ever oversold.

Relay | Multi Tenant AI Gateway — Java, Spring Boot, Spring AI, MongoDB, Redis

- Single, reliable entry point for teams building on LLMs, with streaming chat, background AI jobs, per team token budgets and automatic failover when an AI provider goes down.

EDUCATION

B.Tech, Computer Science and Engineering | Narula Institute of Technology, Kolkata — Aug 2016 to Jul 2020

CERTIFICATIONS AND AWARDS

- Claude Certified Architect, Foundations | Anthropic | 2026
- OCI Generative AI Professional | Oracle
- Programming, Data Structures and Algorithms using Python | IIT (NPTEL)
- Emerging Icon and Extra Miler awards | Bounteous
- Star of the Month, On the Spot and Best Team awards | Tata Consultancy Services
