Summary

Versatile Backend Engineer with more than 5 years of experience designing scalable, high-performance Java microservices on AWS. Skilled in system design and performance optimization, modernizing legacy systems with Spring Boot and MongoDB, and building REST/GraphQL APIs and AI-powered integrations. Proven expertise in solution architecture, cloud-native deployments, and leading engineering teams.

Experience

Accolite Digital Remote

Lead Software Engineer *Jan 2024 – Present*

- Led backend development for a major European telecom enterprise, delivering automation and modernization solutions that cut manual effort by 40% across multiple business lines.
- Architected and built Spring Boot 3 microservices with Java 17, handling over 10 million API requests monthly and enhancing system performance and maintainability.
- Developed and optimized REST and GraphQL APIs, increasing order processing efficiency by 35% and enabling seamless platform integration.
- Applied reactive programming to boost application responsiveness and fault tolerance under peak loads, supporting a 50% increase in traffic.
- Deployed cloud-native solutions on AWS using MongoDB, managing dynamic datasets with over 1 million records and enabling fully automated workflows.

Infosys Limited Kolkata

Associate Consultant *May 2023 – Jan 2024*

- Collaborated with backend team to develop financial solutions for a major private bank, enhancing critical business operations.
- Engineered an automation tool that minimized development workload by 40%, accelerating delivery and improving team efficiency.
- Contributed to software architecture and feature optimization, increasing user experience by 20% and end-user satisfaction by 40%.

Tata Consultancy Services Kolkata

Systems Engineer *Aug 2020 – May 2023*

- Spearheaded development and launch of TCS BaNCS Insurance application, increasing user engagement by 30%.
- Managed migration of legacy life, annuity, and pension systems impacting more than 6 million policies across UK brands.
- Reduced development time by 20% and enhanced application performance by 30% through strategic project leadership and workflow optimization.
- Led junior developer team to deliver projects within budget and schedule, applying full SDLC expertise in client-server environments.

Projects

Reactive Trading Platform | *Spring WebFlux, R2DBC, Project Reactor*

- Developed fully reactive stock trading simulation with real-time portfolio updates and Server-Sent Events for live streaming. Built microservices architecture with non-blocking APIs, reactive database access, and Spring WebClient integration.

AI-Powered Resume Analyzer | *Spring Boot, Apache Tika, Hugging Face*

- Constructed intelligent resume analysis platform with AI-driven skills extraction, sentiment analysis, and job role classification. Implemented scoring system with analytics dashboards, RESTful APIs, and machine learning models for document evaluation.

Job Portal Web Application | *Spring Boot 3, Spring Security, Hibernate, Thymeleaf*

- Built secure full-stack job portal with role-based access control, job posting, search functionality, and application management. Integrated responsive Thymeleaf UI, Spring Data JPA mapping, and comprehensive authentication with password encryption.

Technical Skills

Programming Languages: Java 17, SQL, Python
Frameworks & Libraries: Spring Boot 3, Spring MVC, Spring WebFlux, Hibernate, JPA, JDBC, Project Reactor
Databases: MongoDB, PostgreSQL, MySQL, H2
Architecture & APIs: Microservices Architecture, REST APIs, GraphQL, Server-Sent Events (SSE), WebClient
Cloud & DevOps: Amazon Web Services (AWS), EC2, Lambda, S3, CloudWatch, Maven, Git, Docker
Testing & Quality: JUnit, Mockito, WebTestClient, Test-Driven Development (TDD)
AI & Data Processing: Hugging Face Transformers, Apache Tika, Regular Expressions
Methodologies: Agile Development, Scrum, SDLC, CI/CD
Development Tools: IntelliJ IDEA, R2DBC, Apache Kafka

Education

Narula Institute of Technology Kolkata
Bachelor of Technology in Computer Science & Engineering *Aug 2016 – July 2020*

Certifications

OCI Generative AI Professional | Oracle
Programming Data Structures and Algorithms Using Python | Indian Institute of Technology
Workshop on New Technologies for Development | Asian Institute of Technology, Thailand
Geographical Information System (GIS) & Global Navigation Satellite System (GNSS) | IIRS & ISRO
Remote Sensing & Digital Image Analysis | IIRS & ISRO

Awards & Recognitions

Emerging Icon | Accolite Digital
Extra Miler | Accolite Digital
Star of the Month | Tata Consultancy Services
On-the-Spot | Tata Consultancy Services
Best Team | Tata Consultancy Services
NIT Jewels | Narula Institute of Technology
