SUMMARY

Lead Backend Engineer with 6+ years in Java, Spring Boot and AWS, working for BT, a large Indian private bank and UK insurers. Launched the service that put BT's contact centre and store orders on its digital journey, lifting order volume 30%+ in three months. Now building agentic AI tools on Claude for BT's sales and leadership teams, and mentoring 5 to 7 engineers.

SKILLS

Languages: Java (17, 21, 25), SQL, Python
Backend: Spring Boot, Spring WebFlux, Spring Security, Spring Data JPA, Hibernate, REST APIs, GraphQL, gRPC
Architecture: Microservices, Distributed Systems, System Design, Event Driven Architecture, Scalability, High Availability, Concurrency
Data and Messaging: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, Apache Kafka
Cloud and DevOps: Amazon Web Services (AWS), Docker, Kubernetes, Terraform, CI/CD, GitHub Actions, Jenkins
Observability and Testing: OpenTelemetry, Prometheus, Grafana, JUnit, Mockito, Testcontainers
AI Engineering: Agentic AI, AI Agents, LLM Orchestration, Tool Calling, RAG, Vector Databases, MCP, Spring AI, Claude Code
Leadership: Mentoring, Code Reviews, Stakeholder Communication, Cross Team Collaboration, Agile and Scrum

PROFESSIONAL EXPERIENCE

Lead Software Engineer | Bounteous | Client: BT (British Telecom) | Remote — Jan 2024 to Present

- Launched the service that lets BT's contact centre agents and store staff start orders in the new digital journey instead of legacy screens. Order volume rose 30%+ within 3 months.
- Built 2 agentic AI proofs of concept on Claude, routing each task to a model tier by cost: an order tracker that shows managers where orders stall, and a leaderboard that nudges sales agents on follow ups.
- Grew backend microservices to 10M+ API requests a month, reworked order APIs for 35% more efficient processing, and moved peak flows to Spring WebFlux to carry a 50% traffic jump.
- Replaced manual steps across 1M+ records with automated workflows, saving 40% of manual effort across business lines.
- Use Claude daily to compare architecture options and their trade offs in design reviews, and in coding, testing and code review, which cut delivery time by about 20%.
- Mentor 5 to 7 engineers, review their code, run releases and handle production incidents.

Associate Consultant | Infosys | Client: leading private sector bank | Kolkata — May 2023 to Jan 2024

- Wrote Java and Spring Boot services for core banking operations at one of India's largest private banks.
- Built an internal automation tool that took 40% of the repetitive work off the development team.
- Improved high traffic banking features, lifting end user satisfaction by 40%.

Systems Engineer | Tata Consultancy Services (TCS) | Kolkata — Aug 2020 to May 2023

- Moved 6M+ life, annuity and pension policies for UK insurers from legacy systems onto TCS BaNCS.
- Cut development time by 20% and improved application performance by 30% by reworking team workflows.
- Led and mentored a team of 3 to 4 junior developers through full release cycles, delivering every release on schedule.

PROJECTS

Ledgerline | Payments Ledger — Java, Spring Boot, PostgreSQL, Kafka

- A payments ledger that never charges a customer twice or lets a balance go negative, even when transfers collide, clients retry or a server crashes midway. Fits wallets, marketplaces and payout platforms.

Surge | Flash Sale and Ticketing Backend — Java, Spring Boot, Redis, PostgreSQL

- A ticket and flash sale backend that keeps working when traffic jumps 50x in seconds. Buyers wait in a fair virtual queue, and no seat or item is ever sold twice.

Relay | Multi Tenant AI Gateway — Java, Spring Boot, Spring AI, MongoDB, Redis

- One gateway for teams building on LLMs. It streams chat, runs long AI jobs in the background, keeps each team inside its token budget and switches provider when one goes down.

EDUCATION

B.Tech, Computer Science and Engineering | Narula Institute of Technology, Kolkata — Aug 2016 to Jul 2020

CERTIFICATIONS AND AWARDS

- Claude Certified Architect, Foundations | Anthropic | 2026
- OCI Generative AI Professional | Oracle
- Programming, Data Structures and Algorithms using Python | IIT (NPTEL)
- Emerging Icon and Extra Miler awards | Bounteous
- Star of the Month, On the Spot and Best Team awards | Tata Consultancy Services
