SUMMARY

Lead Java Backend Engineer with 6+ years in telecom, banking and insurance. Builds backend systems that hold up under heavy traffic, moves old platforms onto modern digital journeys and runs large data migrations, work that has grown order volumes, cut manual effort and sped up delivery. Uses AI across design and delivery and in the tools business teams rely on. Leads and mentors engineers and works closely with stakeholders to ship on time.

SKILLS

Languages: Java (17, 21, 25), SQL, Python
Backend: Spring Boot, Spring WebFlux, Spring Security, Spring Data JPA, Hibernate, REST APIs, GraphQL, gRPC
Architecture: Microservices, Distributed Systems, System Design, Event Driven Architecture, Scalability, High Availability, Concurrency
Data and Messaging: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch, Apache Kafka
Cloud and DevOps: Amazon Web Services (AWS), Docker, Kubernetes, Terraform, CI/CD, GitHub Actions, Jenkins
Observability and Testing: OpenTelemetry, Prometheus, Grafana, JUnit, Mockito, Testcontainers
AI Engineering: Agentic AI, AI Agents, LLM Orchestration, Tool Calling, RAG, Vector Databases, MCP, Spring AI, Claude Code
Leadership: Mentoring, Code Reviews, Stakeholder Communication, Cross Team Collaboration, Agile and Scrum

PROFESSIONAL EXPERIENCE

Lead Software Engineer | Bounteous | Client: British Telecom | Remote — Jan 2024 to Present

- Launched a service that lets contact centre and store staff place orders on the new digital journey instead of old screens. Orders went up 30%+ in 3 months.
- Built AI powered dashboards that show stakeholders where every order stands and give sales agents a leaderboard to compete on.
- Microservices now handle 10M+ API calls a month. Reworked the order APIs (35% more efficient processing) and moved the busiest flows to Spring WebFlux ahead of a 50% jump in traffic.
- Automated manual steps on 1M+ records, so business teams spend 40% less time on them.
- Use AI across solution design, architecture reviews, coding and testing, making delivery about 20% faster.
- Mentor 5 to 7 engineers. Also review code, run releases and handle production incidents.

Associate Consultant | Infosys | Client: leading global bank | Kolkata — May 2023 to Jan 2024

- Worked on the Java and Spring Boot services behind core banking operations for a leading global bank.
- Created an internal automation tool that took over 40% of the team's repetitive work.
- Improved high traffic banking features, lifting end user satisfaction by 40%.

Systems Engineer | Tata Consultancy Services (TCS) | Client: leading UK insurer | Kolkata — Aug 2020 to May 2023

- Ran the migration of 6M+ UK life, annuity and pension policies from legacy systems to a modern insurance platform.
- Improved the team's planning and workflow, so features took 20% less time to build and the app ran 30% faster.
- Led 3 to 4 junior developers through full release cycles, and every release shipped on time.

PROJECTS

Ledgerline | Payments Ledger — Java, Spring Boot, PostgreSQL, Kafka

- Payments ledger that won't charge a customer twice or let a balance go below zero, even when transfers collide, clients retry or a server dies halfway. Designed with wallets and payout apps in mind.

Surge | Flash Sale and Ticketing Backend — Java, Spring Boot, Redis, PostgreSQL

- A ticket and flash sale backend that keeps working when traffic jumps 50x in seconds. Buyers wait in a fair virtual queue, and no seat or item is ever sold twice.

Relay | Multi Tenant AI Gateway — Java, Spring Boot, Spring AI, MongoDB, Redis

- One gateway for teams building on LLMs. Streams chat, runs long AI jobs in the background, caps each team's token spend and switches provider when one goes down.

EDUCATION

B.Tech, Computer Science and Engineering | Narula Institute of Technology, Kolkata — Aug 2016 to Jul 2020

CERTIFICATIONS AND AWARDS

- Claude Certified Architect, Foundations | Anthropic | 2026
- OCI Generative AI Professional | Oracle
- Programming, Data Structures and Algorithms using Python | IIT (NPTEL)
- Emerging Icon and Extra Miler awards | Bounteous
- Star of the Month, On the Spot and Best Team awards | Tata Consultancy Services
